**Soft Bamboo "double"**

**- a Bamboo yarn out of the ordinary**

The yarn contains all of 70% of bamboo, which gives the yarn the softest experience and a special lightness. Comfortable to the skin, it makes it also very child-friendly. The texture is silky with a beautiful drape.

**Bamboo and environment** - Bamboo is the fastest growing plant in the world and thus a great source of sustainable production. Bamboo releases more oxygen than any other plant and grows without the use of pesticides. 23% cotton and 7% acrylic help to stabilize the soft bamboo and give the thread a good shape retention. Machine washable.

# Good to know

## Needle Size & Tension

Knitters knit very differently: some knit with a needle size 2,0 mm and obtain the same size of design quality as a person who knits with a needle size 4,0 mm. We owe this knowledge to the team of knitters who join us.

The key to knit a specific size is a lot about the knitting style/hands/skills, rather than the size of needles.

Therefore, we will recommend a range of needle sizes.
