### TAIL

Make a loop from a 40 cm piece of yarn. Pass the needle under a stitch on the back of the elephant, insert the needle into the loop and pull it through. Pull the yarn through the loop and then crochet 10 sl st. Break the yarn and pull the last stitch to form a knot.

### Shape the head and eye socket:

Thread approximately 25 cm of yarn. The needle is inserted under the chin and up at the inside of the eye. A stitch is sewn over and the needle is brought out below the chin. Tighten the thread so that the pressure forms a depression above the eye. To keep the pressure on the indentation, sew through a few stitches below the chin. The socket on one eye is now finished.

# Good to know

## Hook Size + Tension

Crocheters crochet very differently: some crochet with a hook size 2,0 mm and obtain the same size of design and quality as a person who crochets with a hook size 4,0 mm. We owe this knowledge to the team of crocheters who join us. The key to crochet a specific size is a lot about the crochet style/hands/skills, rather than the size of hook. Therefore, we will recommend a range of hook sizes.
