Soft Bamboo "double"

- a Bamboo yarn out of the ordinary

The yarn contains all of 70% of bamboo, which gives the yarn the softest experience and a special lightness. Comfortable to the skin, it makes it also very child-friendly. The texture is silky with a beautiful drape.

Bamboo and environment - Bamboo is the fastest growing plant in the world and thus a great source of sustainable production.

Bamboo releases more oxygen than any other plant and grows without the use of pesticides.

23% cotton and 7% acrylic help to stabilize the soft bamboo and give the thread a good shape retention. Machine washable.

GUIDE:

6 equal sides are crocheted in tr. 4 sides are sewn together so they reach around the cube. Between the sides and the cube, rattle cellophane is added. The last 2 sides are sewn along the first 4 sides as top and bottom.

The handle is crocheted from a chain and worked in dc. It is sewn on top so that it starts on one side and ends on the other.

The spirals are crocheted from a chain with 3 dc in each st. They are sewn on one of the sides, so the long spirals are on each side of the short spirals.

Holes are made in the mirror in which a round of sl st is made and afterwards a round of dc. It is sewn on the backside.

The strap for the rattle ring is crocheted from a chain, back and forth with dc.

The ears are crocheted in a mr in a spiral. They are sewn on the edge between the 'front' and the top. The eyes are crocheted in a mr, a single round. They are sewn on round 3 on the side.

Good to know

Hook Size + Tension

Crocheters crochet very differently: some crochet with a hook size 2,0 mm and obtain the same size of design and quality as a person who crochets with a hook size 4,0 mm. We owe this knowledge to the team of crocheters who join us.

The key to crochet a specific size is a lot about the crochet style/hands/skills, rather than the size of hook. Therefore, we will recommend a range of hook sizes.
