Add filling to the head.

Cut the yarn and sew the head together.

Shape the head and the eye sockets:

Thread the yarn a with approx. 25 cm yarn.

Insert the needle under the chin and up by the inner side of the eye. Stitch over one stitch and bring the needle out at the lower part of the chin. Tighten the thread so that the pressure creates a depression above the eye. To maintain the pressure on the depression, stitch through a couple of stitches at the lower part of the chin. The depression on one eye is now completed. Repeat the process on the opposite eye.

See illustration.

Embroider eyebrows as shown in the pictures.

Good to know

Hook Size & Tension

Crocheters crochet very differently: some crochet with a hook size 2,0 mm and obtain the same size of design and quality as a person who crochets with a hook size 4,0 mm. We owe this knowledge to the team of crocheters who join us. The key to crochet a specific size is a lot about the crochet style/hands/skills, rather than the size of hook. Therefore, we will recommend a range of hook sizes.
