The bamboo adds softness and lightness to the yarn, and the wool contributes with its well-known excellent durability. Wool is a sturdy material that requires very little washing and lasts for a very long time. It is one of the reasons why some consider wool to be among the most sustainable materials.

With Vintage thread a needle with approx. 25 cms yarn.

Insert the needle from under the chin and out at the side of the eye.

Guide the thread around some stitches by the eye and then back out under the chin. Tighten the yarn to form the hollow around the eye, tighten the yarn through a few stitches under the chin.

The hollow for the eye is now completed.

Should you want the hollow deeper the process can be repeated and a stitch added towards the top of the eye.

Repeat the process for the other eye.

Good to know

Hook Size + Tension

Crocheters crochet very differently: some crochet with a hook size 2,0 mm and obtain the same size of design and quality as a person who crochets with a hook size 4,0 mm. We owe this knowledge to the team of crocheters who join us.

The key to crochet a specific size is a lot about the crochet style/hands/skills, rather than the size of hook. Therefore, we will recommend a range of hook sizes. .
